

# Anshuman Upadhyay

## AWS Developer Associate

A motivated and tech-savvy working as a Systems Engineer in Infosys. I joined Infosys on 9th October 2017, from then on I have been trained and worked on niche technologies like Angular 6, Express.js, Node.js, React.js, AWS. I have handled a development project of Wesco Inc in Infosys on Angular 5 and now I am handling AWS project of Cummins Inc in Infosys.

I am comfortable with backend and front end technologies. I am also comfortable with Django 2.x and Mysql database. Including NoSql database like Dynamo db on AWS. I am currently certified as AWS Developer Associate(The Certificate of the same can be found here: <https://goo.gl/FKgN52>)

I believe in work and I love what I do. I also believe in working beyond what is expected officially to deliver the best possible product and to satisfaction of the client.
